### **COPYRIGHTS APPLY IN ALL CASES.**

Always ensure that your organisation is properly licensed. No other licensing entity is allowed to issue licenses for the studios and movies we exclusively represent in Canada.

ACF is the **exclusive Canadian public performance rights representative** for numerous studios and thousands of movies. We offer short term and annual public performance licenses that allow for the presentation of commercially available movies in a public. No other rights representative may offer licenses (in Canada) for the studios and movies we exclusively represent in Canada.

**The Copyright Act of Canada** is the federal statute governing copyright law in Canada and it regulates the public performance of commercially available movies across the country. Additional information concerning copyrights in Canada may be obtained at:

http://www.cb-cda.gc.ca/societies-societes/index-e.html

#### How does this apply to Campgrouns and Summer Camps?

Although public presentations of commercially available movies require a public performance license. This applies even if movies are shown freely, shown for small groups, or if movies are obtained from personal collections or commercial streaming services.

Movie nights in campgrounds and summer camps require a public performance license, even if these events are free or take place for just a few people.

Even if you present just one or a few movies during the year, you still need a license.

Notwithstanding the charitable or non-profit nature of your event, a public performance license is required. Most of the organisations we deal with (schools, churches, towns, etc.) are not-for-profit in nature and all require a public performance.

in blu-ray, DVD or through an online

commercial streaming service. Is a

We show movies that we have purchased

license still required?

**Yes**, public performance licenses are required in all cases. Movies that are rented, borrowed or purchased are only for personal, private use for family and friends. Owning a BR/DVD or renting a streaming service (NETFLIX®, DISNEY +®, GOOGLE PLAY®, CRAVE TV® AMAZON PRIME®, ITUNES® etc.) does not confer any public performance rights. If you wish to use a streaming service, ACF offers

its own as an add-on to the copyright license

for public presentations.

We have just found out about copyright licensing requirements, is this a new law?

**No**, the Canadian Copyright Act has been in place for several decades, and licensing requirements have always existed.

What if I don't charge or doing this for a good cause?

A license is required in **ALL** cases, even if movies are shown freely or as part of a fundraiser.

Do all organizations require a license?

Essentially, **yes**. All types of public, private or commercial organisations that present commercially available movies require a public performance license.
